

On Loom Bead Weaving

With Janice Crocker

Materials for students to bring:

- #8 or #11 beads
- Nymo size D String (Many beading enthusiasts use nymo beading thread because of its flat, pre-waxed surface that makes it ideal for beading. Other types of string will work.)
- Beading needle #10 or #12 will be required
- Scissors
- Magnifying mirrors (not required, some students may want this)

Janice will supply small 12x3 (approx.) looms for the class. However, if anyone wants a larger size, she will provide directions on construction.
